EXECUTIVE SUMMARY

1. **Institutional Finance Foundations & Banking Governance:** Dual-track background combining academic training in quantitative finance (Dong Hwa University) with frontline private banking and SME corporate lending at Citi Bank NA and Bank SinoPac. Licensed across Financial Derivatives, Trust Asset Management, and Securities Wealth Advisory.
2. **Algorithmic Decision Systems & Zero-Cloud SPAs:** Architect of zero-cloud interactive decision applications running complex parametric sensitivity engines purely client-side. Engineered dynamic financial engines linking mathematical derivations to 60FPS reactive sliders with 100% data confidentiality for private equity and treasury clients.
3. **Macroeconomic Transmission & FX Risk Modeling:** Engineered quantitative decision models incorporating MAS S$NEER band mechanics, SOFR vs. SORA interest rate parity, SFRS(I) 1-21 balance-sheet foreign exchange restatement friction, and IRAS 17% corporate income tax shield asymmetries.
4. **26-Analyst Quantitative Framework & FRED Pipeline:** Automated investment methodologies from 26 legendary hedge fund managers, streaming real-time Federal Reserve (FRED) macro indicators to build Cross-Asset Time-Lagged Delay Indicators (CATDI) for regime change detection and dynamic portfolio hedging.
5. **Async Research & Boardroom Delivery:** Proven track record translating dense empirical data into executive memoranda, interactive simulators, and publication-grade 300DPI documentation ready for investment committees and family office boards.

CORE COMPETENCIES & TECHNICAL CAPABILITIES

- **Quantitative Finance & Asset Modeling**
  - DCF / LBO / Equity IRR Engines
  - SFRS(I) 1-21 & IFRS 16 Restatements
  - MAS S$NEER Policy Band Mechanics
  - Covered Interest Rate Parity (CIRP)
  - WACC & Capital Hurdle Optimization
  - Multi-Variable Sensitivity Matrices
- **Interactive Architecture & Data Pipelines**
  - Zero-Cloud Client-Side SPAs
  - 60FPS Reactive Sensitivity Sliders
  - Chart.js Dynamic Data Canvases
  - SQL Query Latency Optimization (-60%)
  - Python Numerical Pipelines
  - Time-Series Ingestion & Resampling
- **Macro Regimes & Asset Allocation**
  - 26-Analyst Algorithmic Methodology
  - FRED & Central Bank Data Streaming
  - CATDI Cross-Asset Time-Lag Signals
  - Multi-Horizon Regime Shifts
  - Citi Private Wealth Management
  - OBU Offshore Tax Shield Structuring
- **Async Execution & Institutional Comms**
  - Boardroom Decision Memos
  - Multi-Tier P&L Synthesis
  - Async Documentation Standards
  - Bilingual English / Mandarin
  - Statutory Derivatives Licensing
  - Zero External Data Leakage

PROFESSIONAL EXPERIENCE (PART 1: SENIOR EXECUTIVE LEADERSHIP)

Citi Bank NA & Bank SinoPac

2011 - 2015

Junior Manager — Wealth Management & SME Banking

Taipei, Taiwan

- Managed CitiGold high-net-worth client portfolios and SME corporate credit lines, structuring OBU offshore financing, foreign exchange hedging, and structured yield products.
- Conducted forensic balance sheet audits, debt service coverage ratios (DSCR), and collateral stress-testing across import/export and mid-market industrial clients.
- Consistently ranked in Citi Bank's top quarterly asset acquisition tiers while enforcing spotless compliance with international AML/KYC and fiduciary risk standards.
- Mastered interbank settlement, treasury liquidity controls, and foreign exchange exposure governance that directly inform current quantitative modeling architectures.

CEREALOUTFIT CO., LTD

2019 - Present

Director of Operations & Financial Systems

Taipei, Taiwan ⇄ Ho Chi Minh City, Vietnam

- Structured cross-border corporate finance and foreign-exchange hedging operations for Taiwan-Vietnam bilateral trade, maintaining full compliance with statutory transfer-pricing guidelines.
- Deployed automated financial reporting and working-capital simulation models in Python and SQL, overseeing NT$ 52M annual turnover and multi-currency treasury cash sweeps.
- Secured Ministry of National Defense foreign investment licensing in Vietnam, coordinating legal counsel and accounting partners to optimize cross-border corporate tax withholding.
- Engineered real-time inventory unit economics models that improved gross margin realization by 4.2% across e-commerce and retail channels.

PROFESSIONAL EXPERIENCE (PART 2: COMMERCIAL DISTRIBUTION & BANKING)

Locus Automation JSC / Tech-Link Silicones Vietnam
2020 - 2022

General Manager & Marketing Director — Ho Chi Minh City, Vietnam

- Spearheaded commercial operations and financial controls for a subsidiary of Vietnam's largest silicone manufacturer (1,300 headcount across 9 factories in China and Vietnam).
- Restructured corporate overhead and rebuilt SQL ERP database queries, slashing financial close query latencies by 60% (from 45 minutes down to 18 minutes).
- Achieved subsidiary net positive operating cash flow within 6 months through rigorous working capital discipline and tier-1 retail distributor contract restructuring.
- Navigated 2020 macroeconomic shocks by dynamically hedging raw material imports against currency fluctuations, achieving 2× YoY revenue growth.

Free Link System / Wake N' Bake
2015 - 2020

Founder & Managing Director — Taipei, Taiwan

- Founded premier smart building IoT engineering firm, managing multi-million-dollar import letters of credit, foreign currency settlement, and inventory hedging.
- Master distributor for Fibaro (Poland) and Wulian (China), and authorized distributor for HP Enterprise/Aruba networking hardware across PChome online and Tsann Kuen physical stores.
- Built B2B commercial pipelines across listed property developers (including Da-Jiang Innovations), architectural design firms, and certified contractors.
- Founded and operated Wake N' Bake hospitality venue, driving financial modeling, payroll, and margin optimization, successfully executing an above-market exit.

FLAGSHIP QUANTITATIVE & ENTERPRISE DECISION SYSTEMS

Singapore HoldCo USD 2.85M FX Treasury Carry Engine — Principal Quantitative Architect

`MAS S$NEER Band, SOFR/SORA Parity, SFRS(I) 1-21, IRAS 17%`

Engineered institutional single-page financial model quantifying MAS policy band mechanics, SOFR-SORA yield cushions, accounting translation friction, and corporate tax shields. (**Impact:** Identified exact breakeven USDSGD depreciation velocities and delivered executable hedging decision matrices.)

Greater Taipei Pet Hospitality JV Feasibility Engine — Financial Modeling Architect

`JavaScript, 34 Dense Tables, 12 Parametric Sliders, Chart.js`

Comprehensive investment model with 34 dense operational tables, 12 dynamic sliders, and multi-tier PnL sensitivity analyzing acoustic engineering Capex and cash-on-cash payback. (**Impact:** Enabled private equity sponsors to dynamically stress-test occupancy hurdles and debt amortization schedules.)

Cross-Border Retail JV Architecture & Dynamic Model — Lead Financial Modeler

`Decree 09/2018, Working Capital Runway, Equity IRR, 24 Sliders`

End-to-end joint venture financial engine evaluating statutory distribution licensing, District 1 retail Capex, and Shopee/TikTok Shop omnichannel unit economics. (**Impact:** Delivered interactive equity IRR sensitivity surfaces across working capital and inventory cycles.)

Vietnam HCMC & Cai Mep Ocean Freight Macro Analysis — Macro Research Consultant

`SCFI Trajectory Engine, Port Capacity Topology, Macro Pipeline`

Quantitative supply chain model covering Southern Vietnam's $138.4B export hinterland, carrier schedule reliability across Top 5 carriers, and procurement hedging protocols. (**Impact:** Formulated quantitative contract indexation frameworks hedging against Red Sea and seasonal rate spikes.)
