Eric Liu

Technical Project Consultant & Solutions Architect (Fractional Systems Director)

📍 Taipei, Taiwan ⇄ Ho Chi Minh City, Vietnam (Global Remote / Async) 📧 jiacyu@gmail.com 📱 +886-916-100-757

🌐 Decision Systems Portfolio ↗

EXECUTIVE SUMMARY

1. **Enterprise Systems Architecture & Integration:** 12+ years bridging cutting-edge digital infrastructure with complex commercial operations. Proven track record architecting multi-module business systems, localized IoT automation networks, and zero-cloud interactive decision applications.
2. **Zero-Cloud Client-Side Web Applications:** Pioneer in developing high-density, client-side single-page applications (SPAs) that process complex mathematical sensitivity models purely in the browser—guaranteeing 100% data confidentiality for enterprise and private equity clients.
3. **Cross-Border Systems Deployment:** Established IT, supply chain, and e-commerce infrastructure across Taiwan and Vietnam, including foreign entity incorporation, Ministry of National Defense compliance, and 15,000 MAU regional fulfillment systems.
4. **Database Performance & Pipeline Engineering:** Hands-on expertise in SQL database schema design, query optimization (achieved 60% latency reductions in production manufacturing ERPs), Python microservices, and automated cron pipelines.
5. **Authoritative Industry Standing:** Featured by Taiwan's leading financial daily, 經濟日報 (Economic Daily News), for smart building and IoT systems integration. B.B.A. in Finance with 5 professional financial licenses.

CORE COMPETENCIES & TECHNICAL CAPABILITIES

- **Enterprise Architecture & Web Systems**
  - Zero-Cloud SPA Architecture
  - Client-Side Reactive Engines
  - Chart.js & Data Canvas
  - FastMCP & Microservices
  - RESTful API Integration
  - Cross-Platform Deployment
- **Data Infrastructure & Performance**
  - SQL Schema Design & Optimization (-60%)
  - Python Automated Pipelines
  - Linux / WSL2 Environments
  - Git Version Control & CI/CD
  - Tableau Data Visualization
  - Time-Series Data Extraction
- **IoT & Hardware Systems Integration**
  - Building Automation (Fibaro/Wulian)
  - HPE & Aruba Enterprise Networking
  - Modbus / Z-Wave Protocols
  - B2B Engineering Certification
  - Hardware-Software Bridging
  - Smart Building Specing
- **Commercial Governance & Delivery**
  - Economic Daily News Feature
  - Cross-Border Entity Setup
  - Statutory Compliance (Decree 09)
  - Async Technical Documentation
  - Vendor Contract Negotiation
  - Bilingual English / Mandarin

PROFESSIONAL EXPERIENCE (PART 1: EXECUTIVE LEADERSHIP)

Free Link System / Wake N' Bake

2015 - 2020

Founder & Managing Director

Taipei, Taiwan

- Founded premier smart building IoT integration firm. Featured in 經濟日報 (Economic Daily News) ↗ for landmark channel and engineering innovations.
- Secured master distribution rights for Fibaro (Poland) and Wulian (China); distributed HP Enterprise/Aruba networking hardware to enterprise clients and retail chains.
- Formulated and implemented standardized engineering specifications for Tier-1 real estate developers, architectural firms, and certified electrical contractors.
- Designed and maintained proprietary ERP and inventory relational database schema, connecting hardware procurement, warranty management, and customer CRM modules.
- Founded and operated Wake N' Bake hospitality establishment, developing automated POS and margin reporting workflows prior to a successful equity buyout.

Locus Automation JSC / Tech-Link Silicones Vietnam

2019 - 2021

General Manager & Group Systems Director

Ho Chi Minh City, Vietnam

- Directed technology solutions and commercial systems for a subsidiary of a 1,300-headcount manufacturing group with 9 factories across China and Vietnam.
- Supervised a 34-person engineering and business development team, restructuring production reporting pipelines to achieve net profitability in 6 months.
- Overhauled factory inventory and SQL query architecture, accelerating multi-plant daily ERP reporting from 45 minutes to 18 minutes (60% latency reduction).
- Delivered enterprise smart conference and automation systems to dozens of prominent Taiwanese industrial plants and top-tier Vietnamese corporations (Bitis, Minh Long).

PROFESSIONAL EXPERIENCE (PART 2: COMMERCIAL DISTRIBUTION & BANKING)

CEREALOUTFIT CO., LTD
2020 - 2024

Director of Technology & Operations Taipei, Taiwan ⇄ Ho Chi Minh City, Vietnam

- Architected omni-channel e-commerce systems, database schemas, and digital marketing tracking infrastructure supporting NT$ 52M annual turnover and 164,000 social fans.
- Led Vietnam technical market entry, securing Ministry of National Defense electronic commerce security permits and deploying compliant local server and payment gateways.
- Engineered automated inventory replenishment and financial health analytics pipelines in Python and SQL, maintaining zero downtime across regional peak sales.
- Spearheaded technical vendor evaluations and cloud cost optimization initiatives, reducing monthly infrastructure expenditure while supporting 15,000 monthly active users.

Citi Bank NA & Bank SinoPac
2011 - 2015

Assistant Vice President / Junior Manager — Wealth Management & SME Banking Taipei, Taiwan

- Managed CitiGold wealth management portfolios and structured SME credit facilities, developing analytical cash flow models for corporate clients.
- Conducted rigorous financial risk evaluations and statutory compliance audits for cross-border commercial borrowers.
- Maintained spotless audit records and repeatedly ranked in top quarterly performance tiers, establishing deep grounding in financial engineering and corporate governance.

FLAGSHIP QUANTITATIVE & ENTERPRISE DECISION SYSTEMS

Zero-Cloud Institutional Decision Applications — Principal Systems Architect

`JavaScript, Tailwind, Chart.js, Reactive State Machine`

Architected suite of institutional decision applications that execute complex financial models purely client-side with zero external cloud dependencies or data exposure risks. (**Impact:** Delivered C-suite grade modeling tools with instantaneous reactive sliders and mathematical transparency.)

Greater Taipei Pet Hospitality Feasibility System — Lead Solutions Architect

`SPA Architecture, 34 Operational Tables, 12 Sliders, Chart.js`

Built full-stack single-page application with 34 dense tables, acoustic damping calculations, and dynamic P&L simulation for a NT$ 25M commercial investment project. (**Impact:** Provided private equity sponsors with interactive scenario stress-testing across revenue, capex, and payback.)

Cross-Border Retail JV Architecture & Dynamic Model — Solutions Consultant

`Decree 09/2018, Omnichannel O2O Engine, Working Capital Runway`

Engineered dynamic cross-border joint venture financial application evaluating statutory retail licensing, District 1 store Capex, and Shopee/TikTok Shop omnichannel unit economics. (**Impact:** Enabled multi-variable scenario modeling dynamically recalculating working capital runway and equity IRR.)

Vietnam HCMC Ocean Freight Intelligence Platform — Data Systems Consultant

`SCFI Trajectory Engine, Carrier Reliability Matrix, Dynamic Search`

Designed strategic intelligence platform evaluating Southern Vietnam's $138.4B export hinterland, carrier schedule reliability, and freight procurement hedging protocols. (**Impact:** Empowered corporate shippers to index long-term ocean contracts against dynamic spot-rate trajectories.)

EDUCATION

National Dong Hwa University
Bachelor of Business Administration (B.B.A.) in Finance
2005 - 2009 · Major in Quantitative Finance & Banking

PROFESSIONAL FINANCE & REGULATORY LICENSES

- **Financial Derivatives Specialist License** — Securities & Futures Institute (SFI)
- **Trust Operations & Planning Specialist License** — Taiwan Academy of Banking and Finance (TABF)
- **Senior Life Insurance & Investment-Linked Products** — Life Insurance Association (LIA)
- **Property & Casualty Underwriting License** — Non-Life Insurance Association (NLIA)
- **Securities Senior Representative & Wealth Advisory** — Securities Association
